

AIRMASTER

central vacuum

Quality Vacuum for the Popular Choice

MD's AirMaster is an industry popular, bottom-emptying central vacuum. Designed and assembled in the USA, AirMaster reflects the craftsmanship and quality known to all MD brands. The AirMaster is extremely quiet and provides years of outstanding performance.

Simply Powerful & Durable

Each AirMaster power unit is equipped with a powerful Ametek motor delivering optimum performance for each home. A full line of varying models and motor configurations are designed to clean homes from 1,000 ft² to 10,000 ft². The power unit's main body and motor housing are all 20-gauge steel, while the lower bucket is high-impact ABS to ensure years of reliability.

Hybrid Filtration

AirMaster's unique hybrid filtration system allows homeowners the choice of MD's unique Tru-Seal filtration bags or bagless with the pre-installed inverted Microtex cloth filter. Each model comes standard with both options plus an onboard Utility Valve.

Features

- 10 Year Transferable Warranty Lifetime on Manufacturing
- 5 Gallon Capacity
- Filters to .3 Microns 3-Stage Microfiltration
- Ventable Exhaust
- Dual Debris Intake
- Single Stud Bracket Easy to Hang & Remove
- All 18 & 20 Gauge Steel
- Powder Coated

Designed & Assembled in USA

AirMaster Warranty

M.D. Manufacturing, Inc. warrants its Air Master power units against electrical component failure for a period of ten (10) years. This warranty is transferable with the unit and is not solely limited to the original owner. Any parts (excluding filters) required within the first ten years will be furnished free of charge by the Authorized Dealer from whom the power unit was originally purchased. Model A450t is warranted for three (3) years. In addition, all Air Master units are guaranteed for life against defects in materials and workmanship.

If an Authorized Dealer is not nearby, M.D. Manufacturing, Inc. will honor and perform required warranty services. The end user must return the unit to the factory freight pre-paid. This warranty does not apply to applications outside of North America, commercial applications, misuse, abuse, acts of God, operating without the filters, or units tampered with by unauthorized personnel.

Exterior Venting

Venting is optional but is required for confined locations.

*A central vacuum's square foot coverage should be based on factors including altitude, hours of use, complexity of pipe installation, length of furthest vacuum inlet, noise level desired, type and size of filtration, installation materials, and budget. The square footage recommendation on this page can be higher or lower when taking these factors into consideration.
